

د. علي

كروب (83-1)

د. زاهد

كروب (85-73-56-32)

- 1.Changes in ECG during different stages of anesthesia
- 2.Heart rate changes during anesthesia during different stages
- 3.Changes in the temperature measurement by aural route during different stages of anesthesia
- 4.Changes in blood pressure level during different stages of anesthesia

د. كرار

كروب (84-45-24-3)

1. the effect of low dose ketamine intraoperatively on post-operative pain following laparotomy under general anesthesia .
2. the effect of ketamine on cognitive functions in elderly patient undergoing hernia repair surgery
3. the effect of intravenous midazolam on postoperative nausea and vomiting .
- 4.comparison between nefopam and meperidine in the treatment of postoperative shivering.

د. ماهر حسين

كروب (59-77-58-39-14)

د. ماهر الزغبي

كروب (78-57-27-12)

1. prevention and management PONV in C.S
2. Use Nefopam to prevent shivering in orthopedic surgery under spinal anesthesia
3. Comparison between isoflurane and sevoflurane effect on vital signs during C.S
4. Post operative relive pain with non -steroid anti-flamatory drug

د. إبراهيم

كروب (72-55-43-11)

1. Evaluating physiological changes after endotracheal intubation
2. Evolution between accupan and tramadol in treatment of shivering in patients receiving spinal anesthesia in C\S
3. The analgesic effect of TAP block in C\S
4. Preoperative pregabalin to prevent postoperative neusea and vomiting in laproscopic cholecystectomy

د. محمد جواد

كروب (82-62-30-17)

1. Effect of dexamethasone to prevent postoperative nausea and vomiting in pediatric tonsillectomy
2. Effect of weather on post dural puncture headache
3. The effect of remifentanil on hemodynamic parameter of Apgar score on elective cesarean section under general anesthesia
4. Effect of nebulized lidocaine and intravenous lidocaine on the hemodynamic response of laryngoscopy and endotracheal intubation

أستاذ سامي

كروب (26-16)

1. Blood glucose changes in general and spinal anesthesia in diabetic patients.
2. Comparative study of hemodynamic stability ;sensory and motor blockage in lateral spinal anesthesia at two different speed of intrathecal bupivacaine injection.
3. The effect of diabetes mellitus in patient on general anesthesia
4. Post operative nausea and vomiting in cesareans section under general anesthesia and spinal anesthesia

د. عدنان

كروب (81-75-51-35-2)

1. The role of ephedrine in prevention of hypotension during spinal anesthesia
2. Comparison Between Ketamine and Fentanyl on Apgar Score of Neonates in c/s
3. (Effect of pentothal for a patient under anesthesia suffering from hypokalemia)
4. Effect of Tracheal Intubation on Hemodynamic Status:  
Comparison Between Direct Laryngoscopy and Intubating Laryngeal Mask Airway.

أستاذ انمار

كروب (74-60-33-4)

1. Approach failed spinal anesthesia in C.S
- 2 – Comparison between post operation Pin in C.S under G.A and spinal anesthesia
- 3 – Incidence and management headache in spinal anesthesia
- 4 – prevention and management of post dura punter headache

د. احمد الخالدي

كروب (69-64-22-13)

1. Mortality rate due to intubation in adult icu
2. Hemodynamic stability in propofol as compared with ketofol
3. propofol - fentanyl mixture to prevent propofol induce pain
4. Different analgesic dose of ketamine to prevent rocuronium withdrawal response

د. ياسمين

كروب (70-54-28-6)

1. Complication due to intubation in adult general ICU patient - systematic review.
2. Anesthetists perception of patients anxiety, frequency & effect during regional anesthesia
3. Post-Operative Urinary Retention Beyond SpinalAnesthesia"
4. Hemodynamics stability after applied 5 cmH20 peep in adult patient under general anesthesia.

م م حسن راجح

كروب (29-7)

1. "The Effect of DM in Patients on General Anesthesia'

## 2. Comparison Between Effect of Spinal and General Anesthesia for Caesarian Section C/S On Apgar Score"

أستاذ احمد سامر

كروب (80-15)

1. Malignant hyperthermia induced by volatile anesthesia
2. Evaluation of Preoperative Anxiety and Fear of Anesthesia Among Patients in Hillah Teaching Hospitals

أستاذ غيث

كروب (52-34-5)

1. Use ondestron to prevent and management PONV in spinal anesthesia.
2. Effect of tramadol to relive post operative pain in laparotomy surgery
3. Management shivering during spinal anesthesia in orthopedic surgery
4. The effect of hypotension technique on recovery room time on rhino plastic surgery

15. د. وسنان

كروب (71-65-37-18)

1. Effect of general anesthesia on blood pressure in hypertensive patient.
2. Comparison of the hemodynamic response with LMA vs ETT in adult undergoing general anesthesia for elective surgery .

3. Comparison of the clinical effects of fentanyl and lidocaine in preventing the hemodynamic responses to endotracheal intubation and extubation .

4. Comparative study between smoker and nonsmoker on ponv

م م زينب

كروب (49-47-25-8)

1. The effect of intravenous dexamethasone, Zofran on hemodynamic stability in patient undergoing spinal anesthesia in cesarean section

2. Evaluation of preoperative anxiety and fear of anesthesia among patients in teaching hospitals

3. Post operative nausea and vomiting in cesarean section under general and spinal anesthesia

4. The effect of intraoperative methadone compared to morphine on post-surgical pain

أستاذ حيدر محي

كروب (48-21)

1. Effect metoprolol on bleeding in nasal surgery

2. comparison between atracurium and rocuronium

د. سارة

كروب (79-46-23-9)

1. Relation between hypotension technique & recovery time in nasal surgery

2. Supplement O2 postoperative for prevent of nausea and vomiting after laparoscopic surgery
3. Prevent and management of hypotension during spinal anesthesia
4. Hypotension technique by propofol in rhino plastic surgery

أستاذ حسين تركي

كروب (53-31-20)

1. The effect tab block on pain management post-operative in C.S
2. Nosocomial chest infection in neonatal care unit
3. Comparison between direct laryngoscope and intubating laryngeal mask air way

د. عمار

كروب (67-61-36-19)

1. Assessment and evaluation of difficult intubation
2. knowledge technician of anesthesia about uses capnograph
3. Complication during intubation in neonatal care unit
4. Urinary retention post-operative during spinal anesthesia

م غصون

كروب (68-66-50-38)

1. Incidence and associated factors of laryngospasm among pediatric patient who underwent surgery under general anesthesia

2. Effect of spinal anesthesia on blood glucose concentration in patient undergoing elective cesarean section
3. Evaluation of the post operative analgesia Efficiency And opioid sparing affect
4. Effect of tramol as an adjuvant to local anesthesia in supraclavicular brachial plexus block for upper extremity surgery.

أستاذ علاء

كروب (76-63-44-10)
