Remove programs from the computer

Control panel/programs/programs and feature

The image shows a screenshot of the Windows Control Panel, specifically the 'Programs and Features' section. The window title is 'Control Panel > Programs'. The left sidebar lists various control panel categories, with 'Programs' selected. The main content area shows 'Programs and Features' with options like 'Uninstall a program', 'Turn Windows Features on or off', 'Run programs made for previous versions of Windows', 'Default Programs', and 'Desktop Gadgets'. A purple arrow points to the 'Uninstall a program' link. To the right of the screenshot, there are three callout boxes with Arabic text and icons:

- ضبط إعدادات الكمبيوتر** (Control Computer Settings) with an icon of a computer monitor. Below it are links for 'المشاركة ومحفوظة' (Sharing and Storage) and 'المشاركة العنصرية' (Network Sharing).
- الأجهزة والصوت** (Devices and Sound) with an icon of a printer. Below it are links for 'عرض الأجهزة والطابعات' (View Devices and Printers) and 'إضافة جهاز' (Add Device).
- البرامج** (Programs) with an icon of a software box. Below it is a link for 'إزالة تثبيت برنامج' (Uninstall a Program), which is highlighted in yellow and pointed to by a purple arrow.

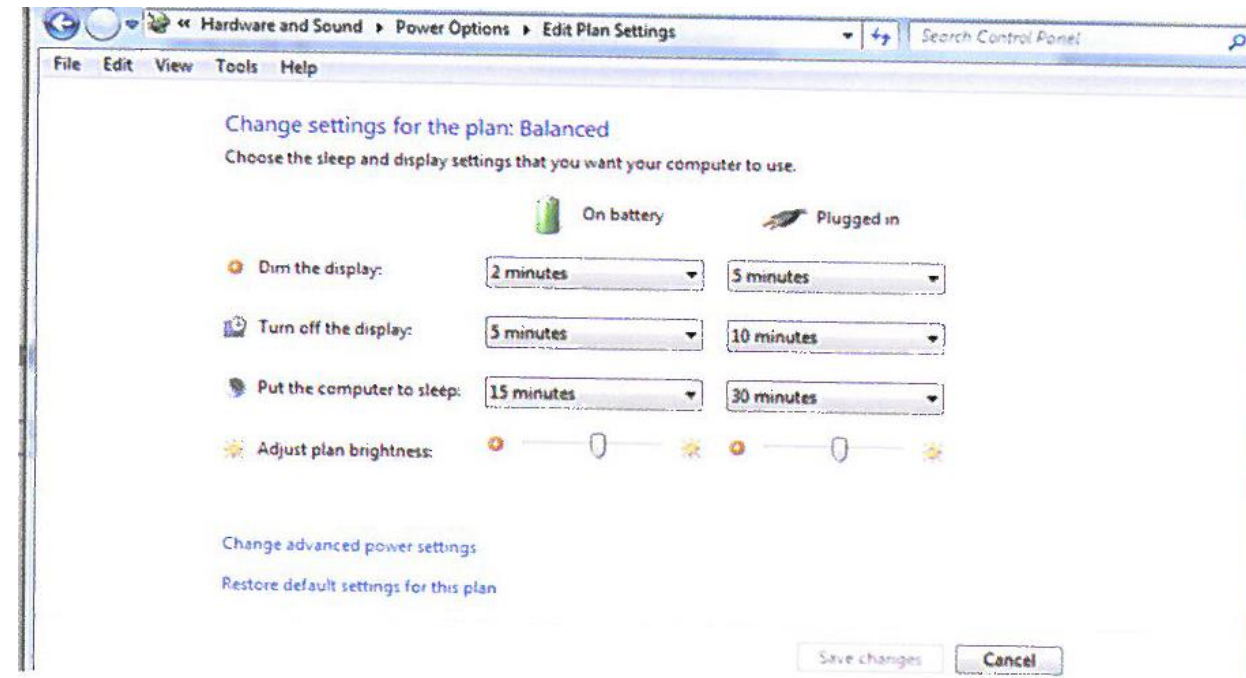

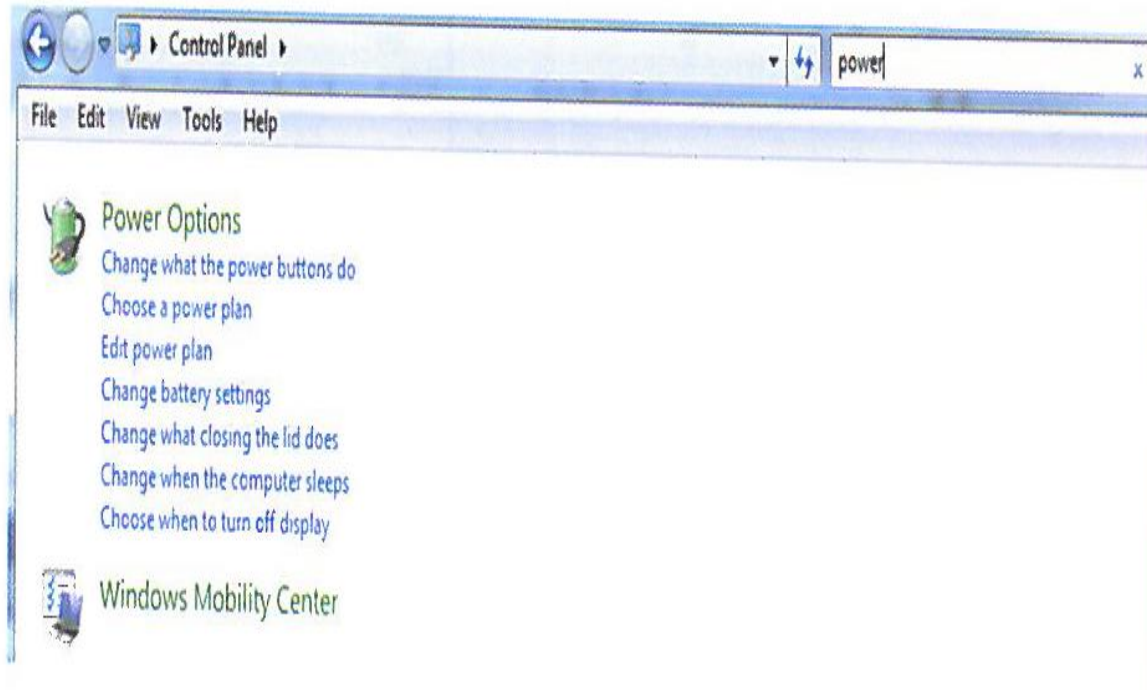

At the bottom center, there is a callout box with the title **سهولة الوصول** (Ease of Access) and an icon of a person with a white cane. The text below it reads: 'السماح لـ Windows باقتراح الإعدادات وتحسين أداء العرض المرئي' (Allow Windows to suggest settings and improve visual performance).

A window will appear, pointing to the program to be deleted and choosing [Uninstall](#)

➤ Keep the battery for a longer period of computers

From control panel /power option / Edit power plane

You can control from this window the screen's brightness when the power is cut off and the computer remains on

Thank you
