....CT SAGITTAL IMAGES

Abnormal bilateral ethmoid , maxillary
& nasal cavity ,(polyps with
fungal infection)

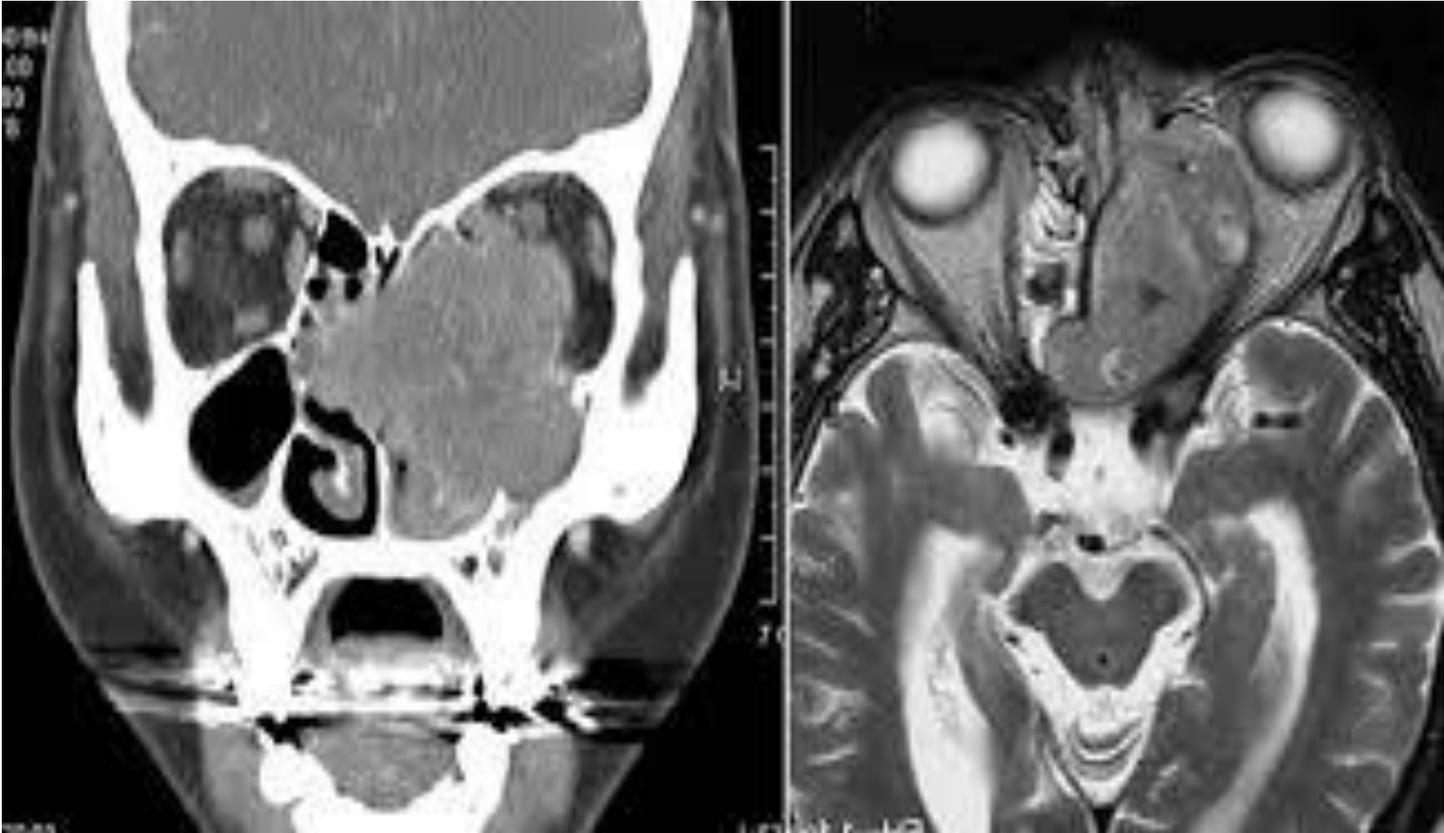

Abnormal LT maxillary,(polyp)

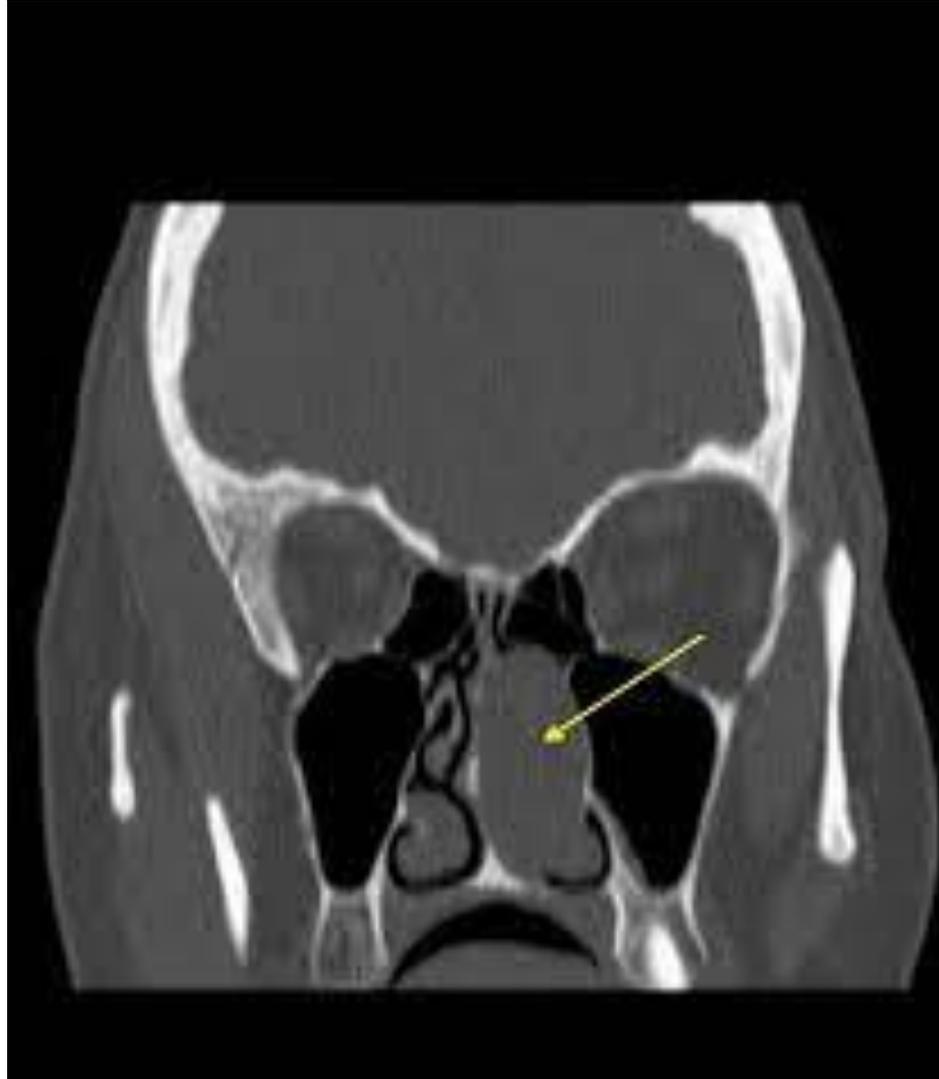

Abnormal bilateral ethmoid , maxillary, mucosal thickening

Abnormal LT ethmoid , maxillary & nasal cavity ,

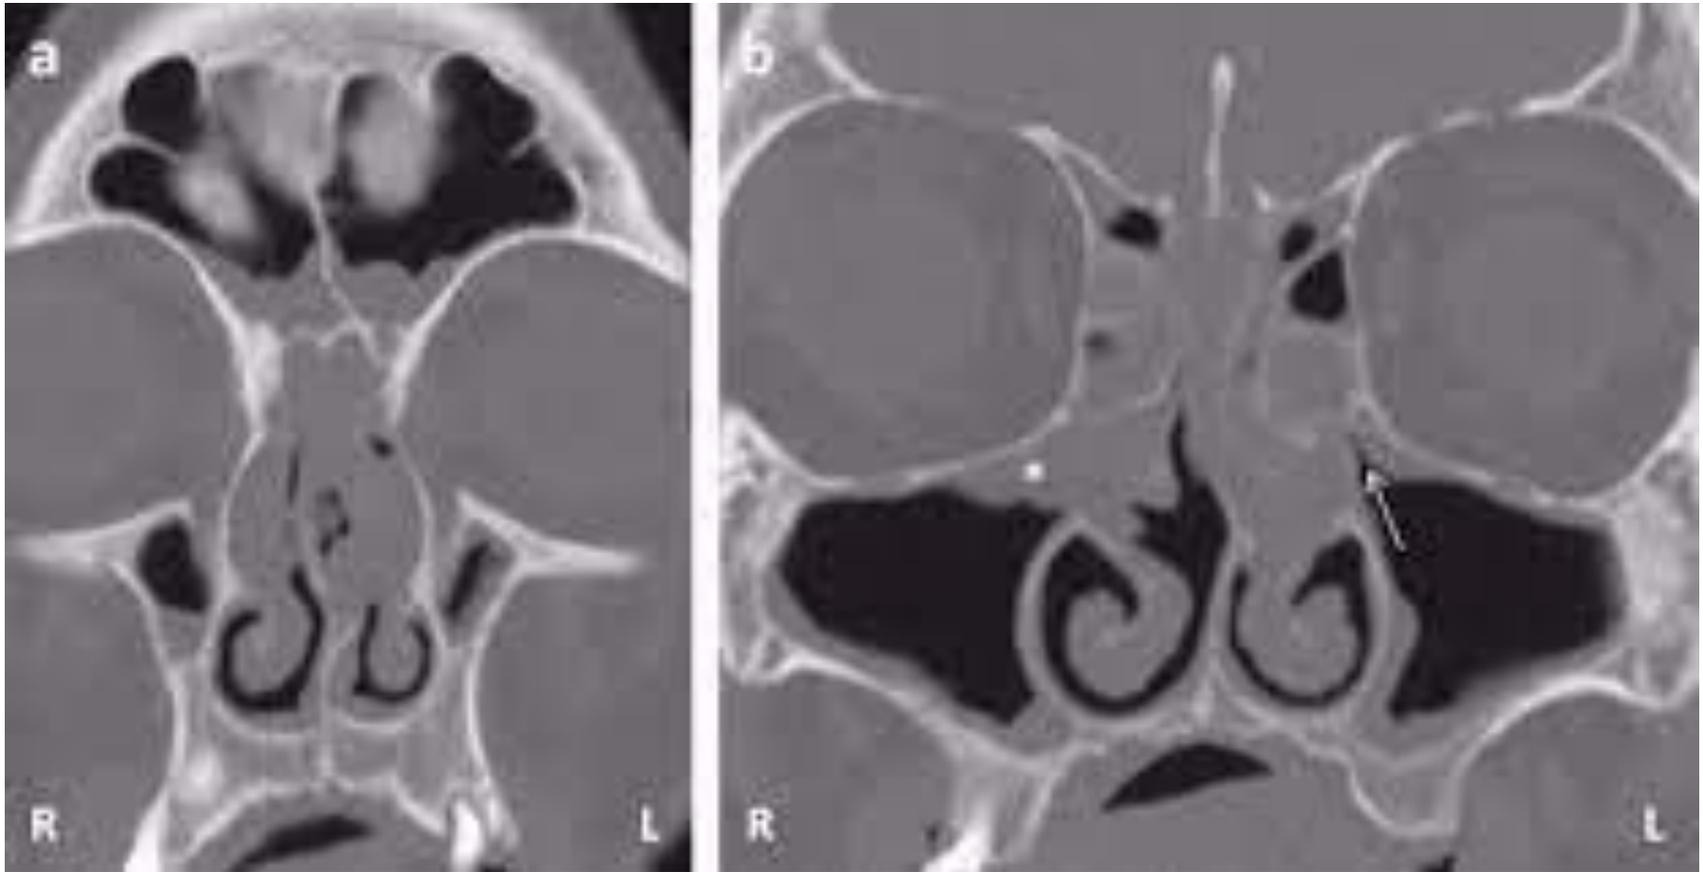

Abnormal LT nasal cavity (polyp) ,

Abnormal LT maxillary & nasal cavity ,(polyp)

Abnormal bilateral ethmoid , maxillary frontal & nasal cavity (polyyps) ,

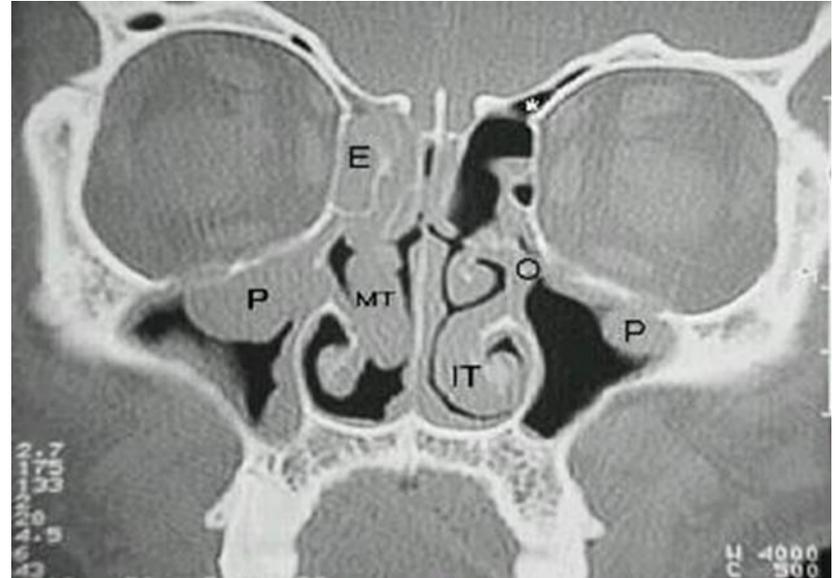

Abnormal bilateral maxillary & nasal cavity ,nasal septum

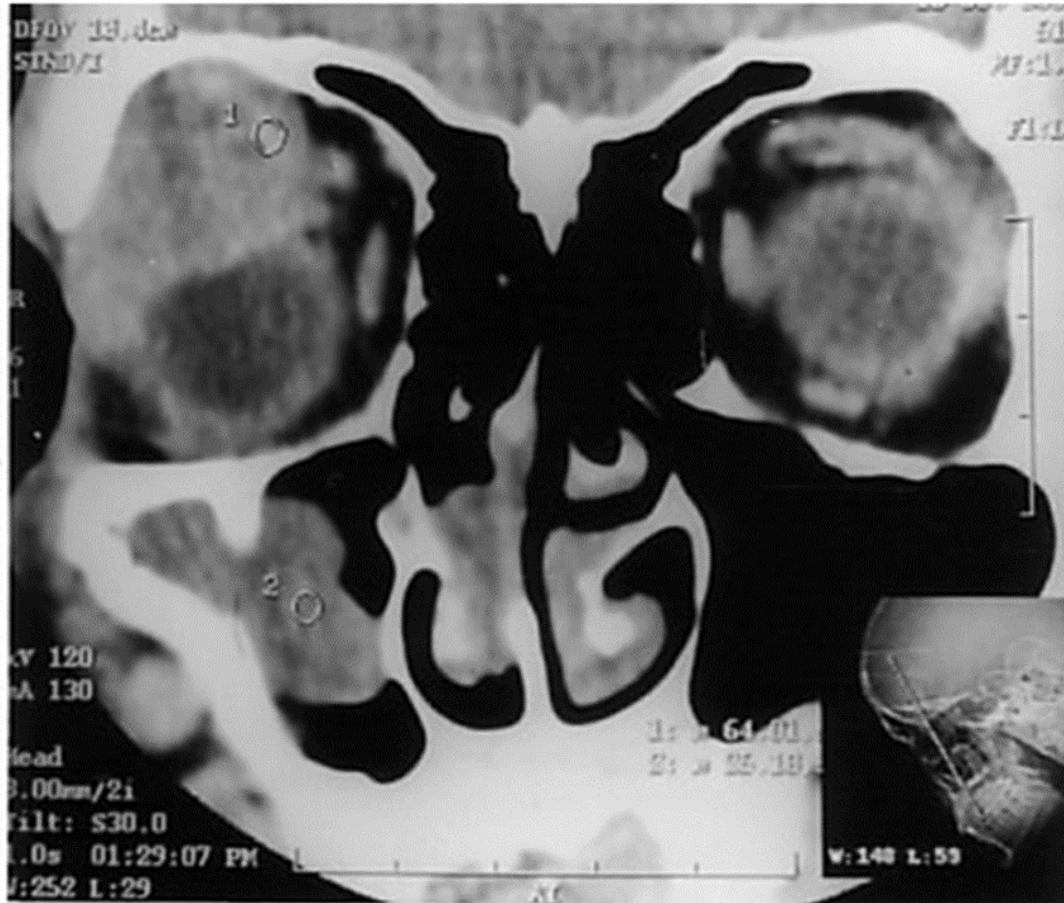

SINUSITIS

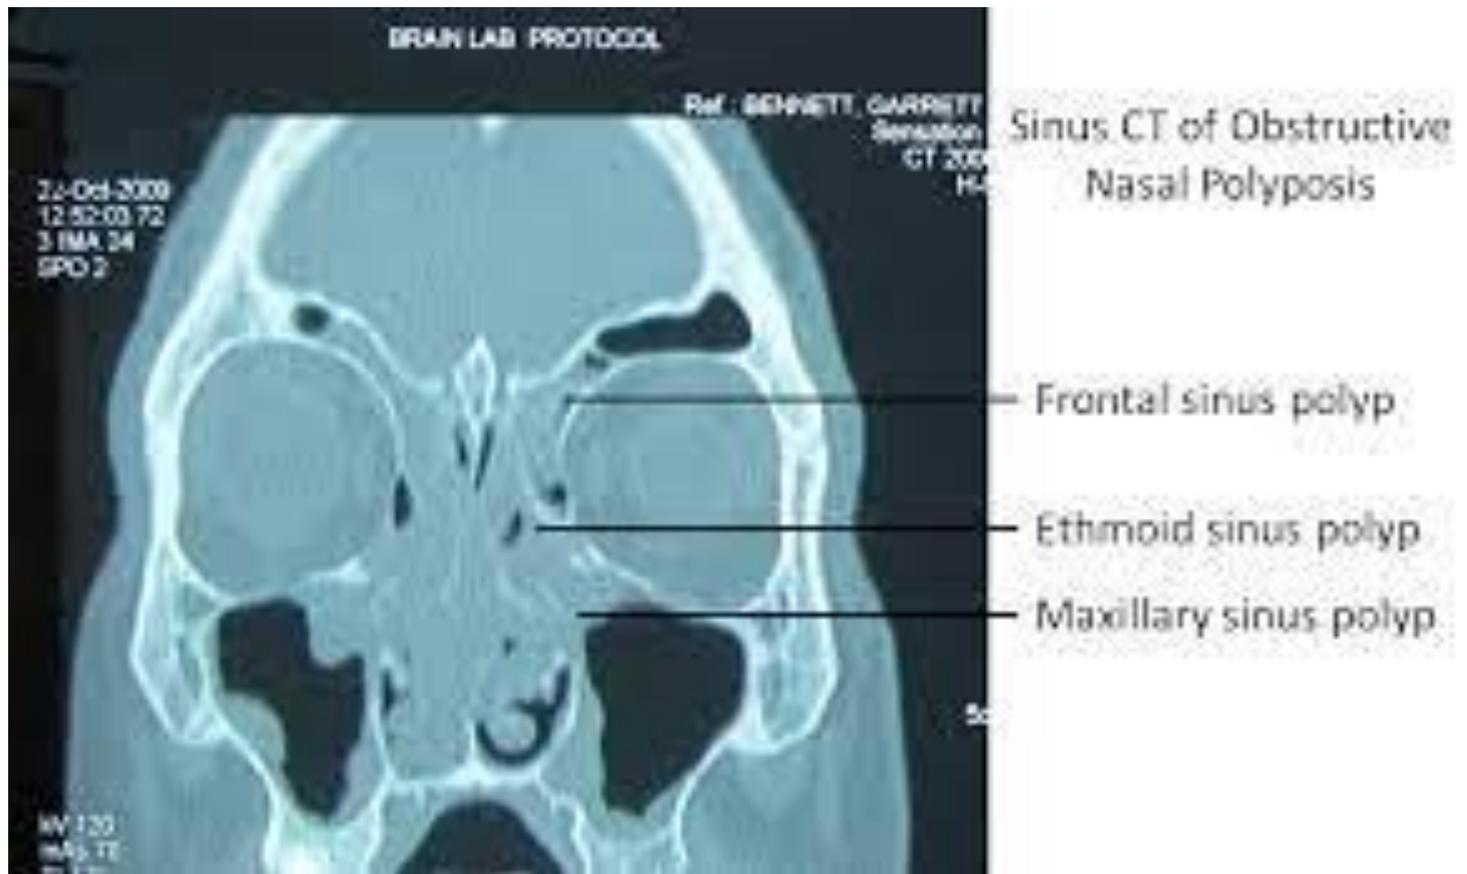

- Sinusitis is the name given when the lining of one or more of these sinuses is red, swollen, and tender, the opening is blocked, and the sinus is at least partially filled with fluid (mucus and/or pus).

SINUS POLYP

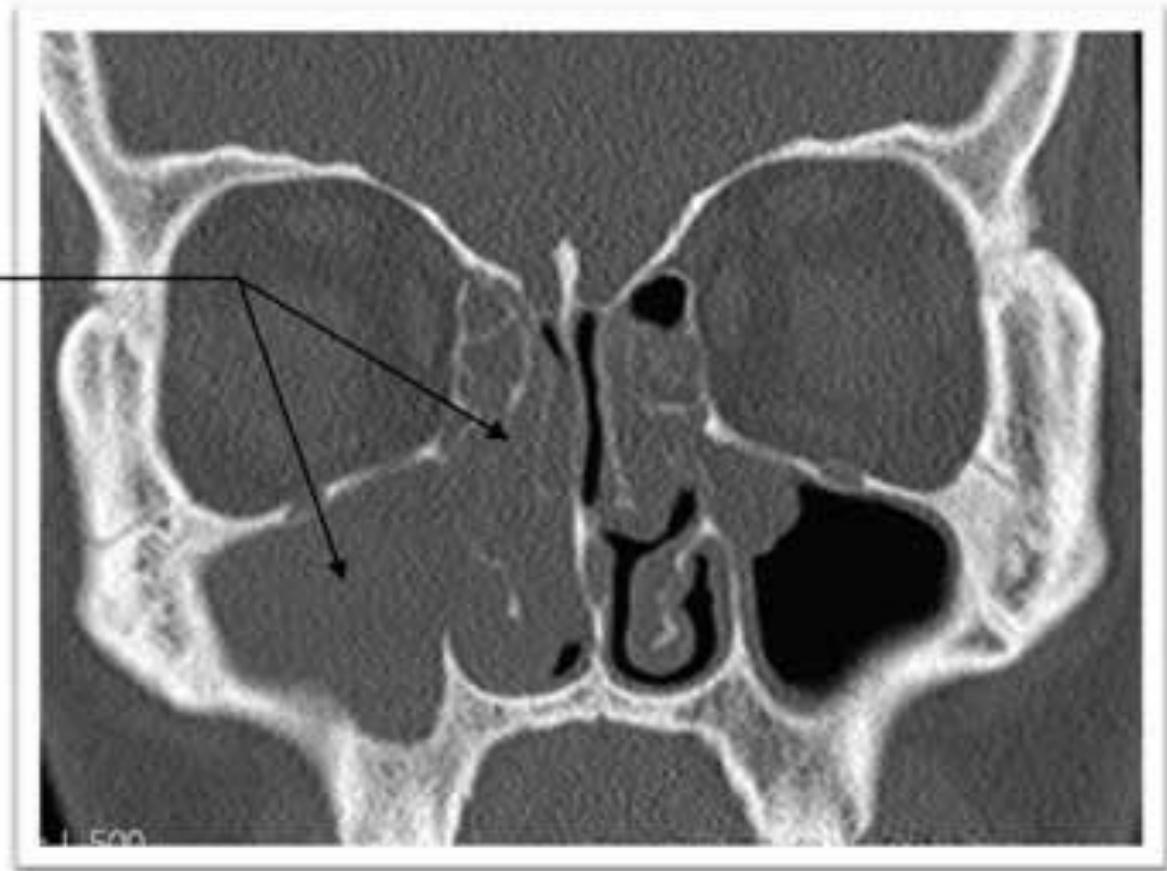

Abnormal bilateral ethmoid , maxillary frontal & nasal cavity ,

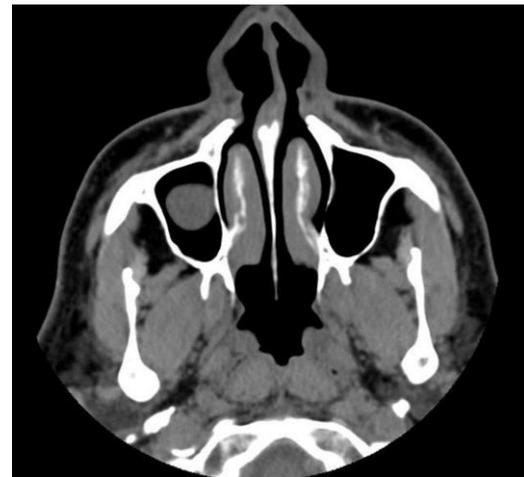

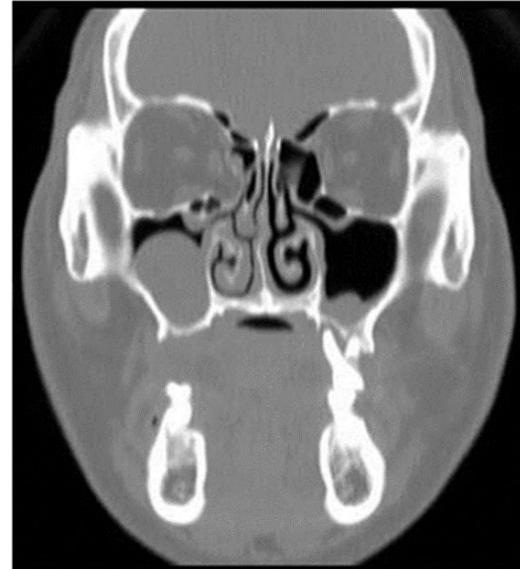

Abnormal bilateral ethmoid , maxillary & nasal cavity ,

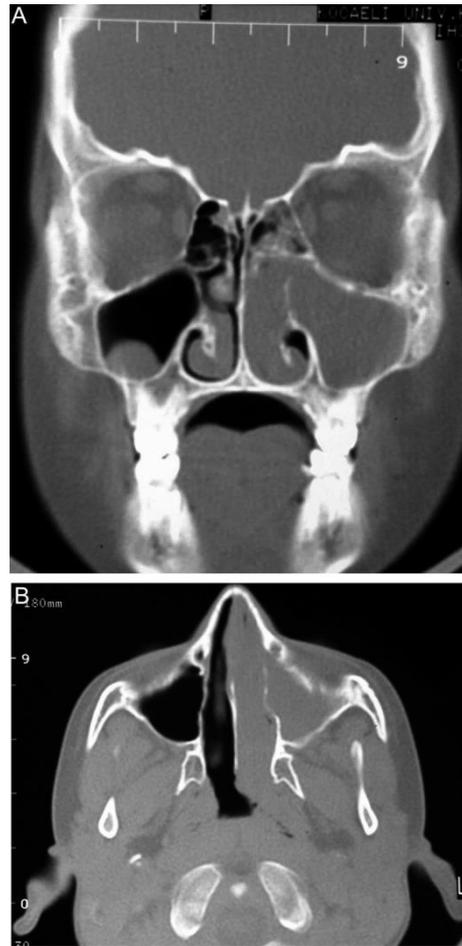

Right maxillary
Sinus and ethmoid
sinuses filled with
polyps

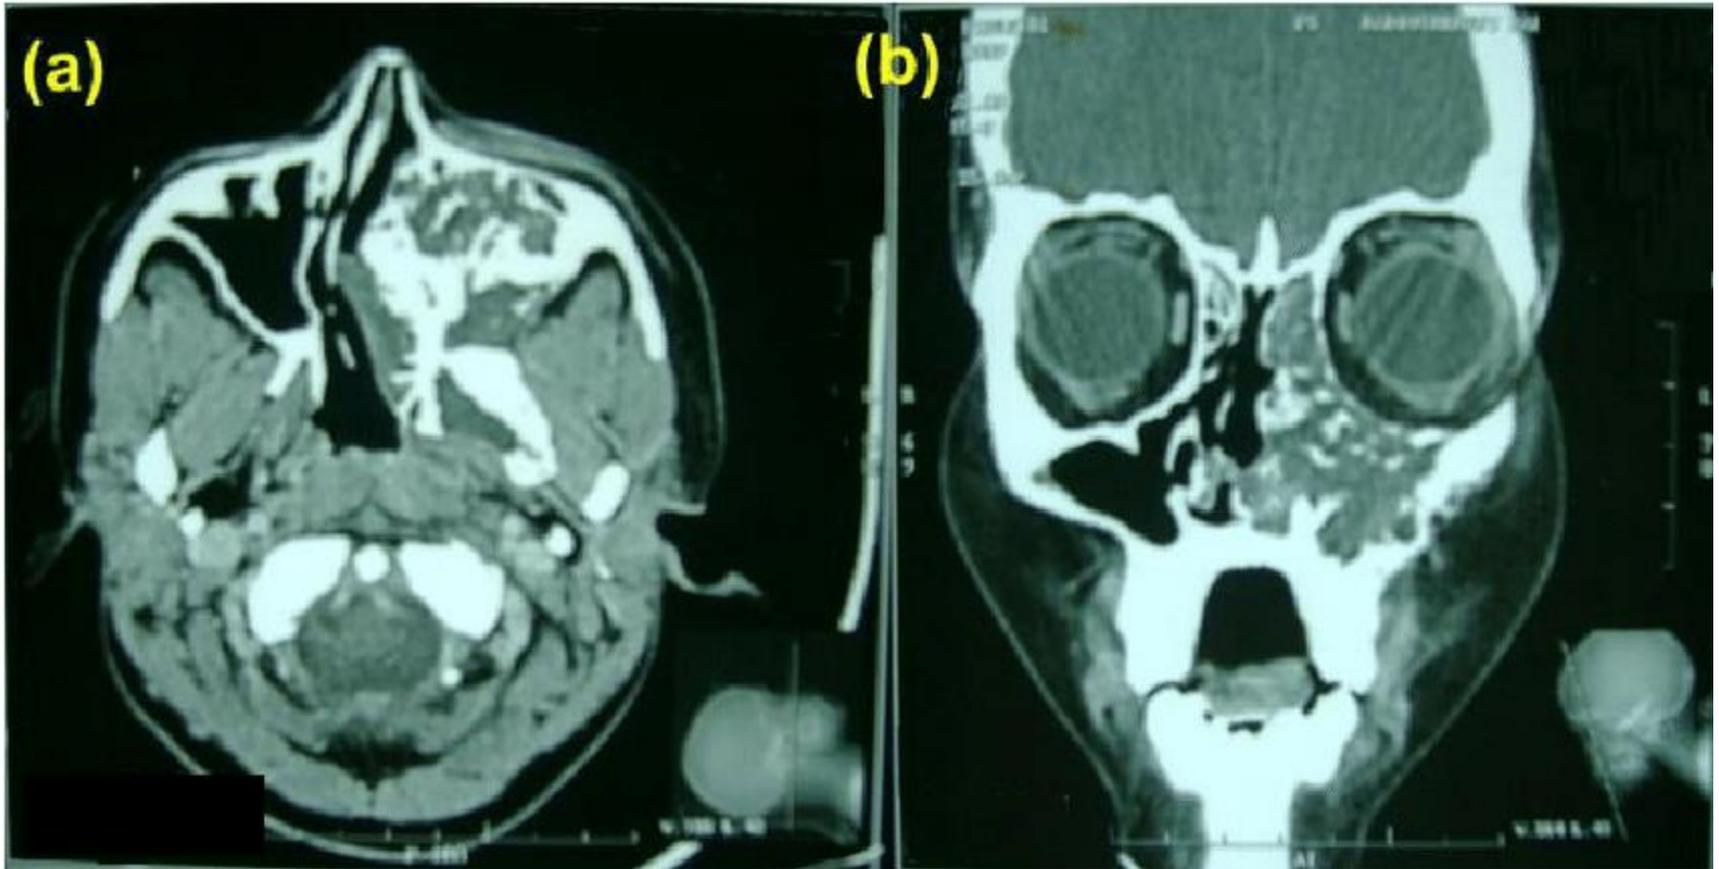

Retention cyst LT maxillary sinus

Abnormal bilateral ethmoid , maxillary & nasal cavity ,

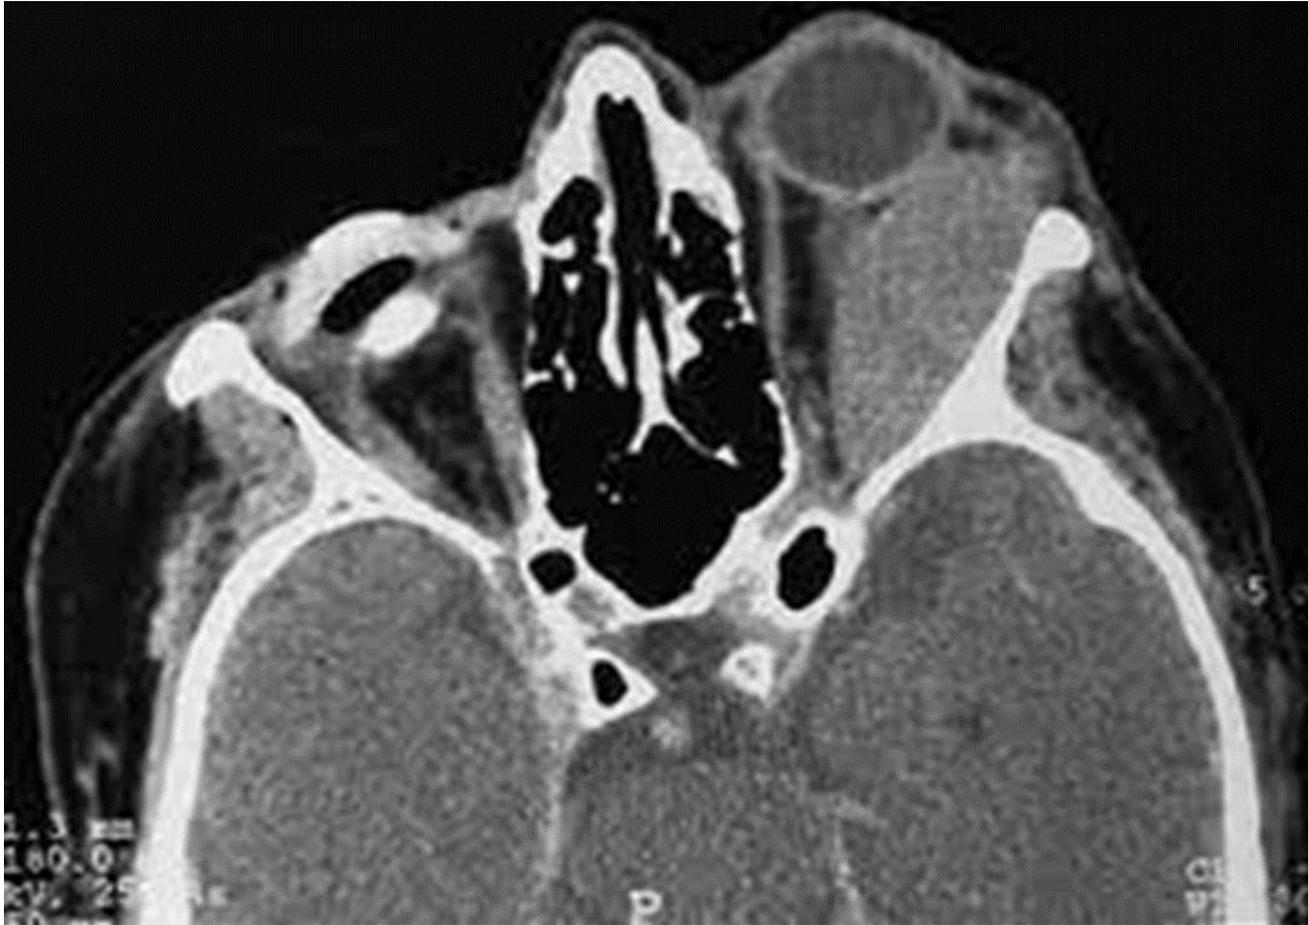

Tumor LT maxillary & ethmoid sinus with bone destruction
