**Lateral Skull X-ray**

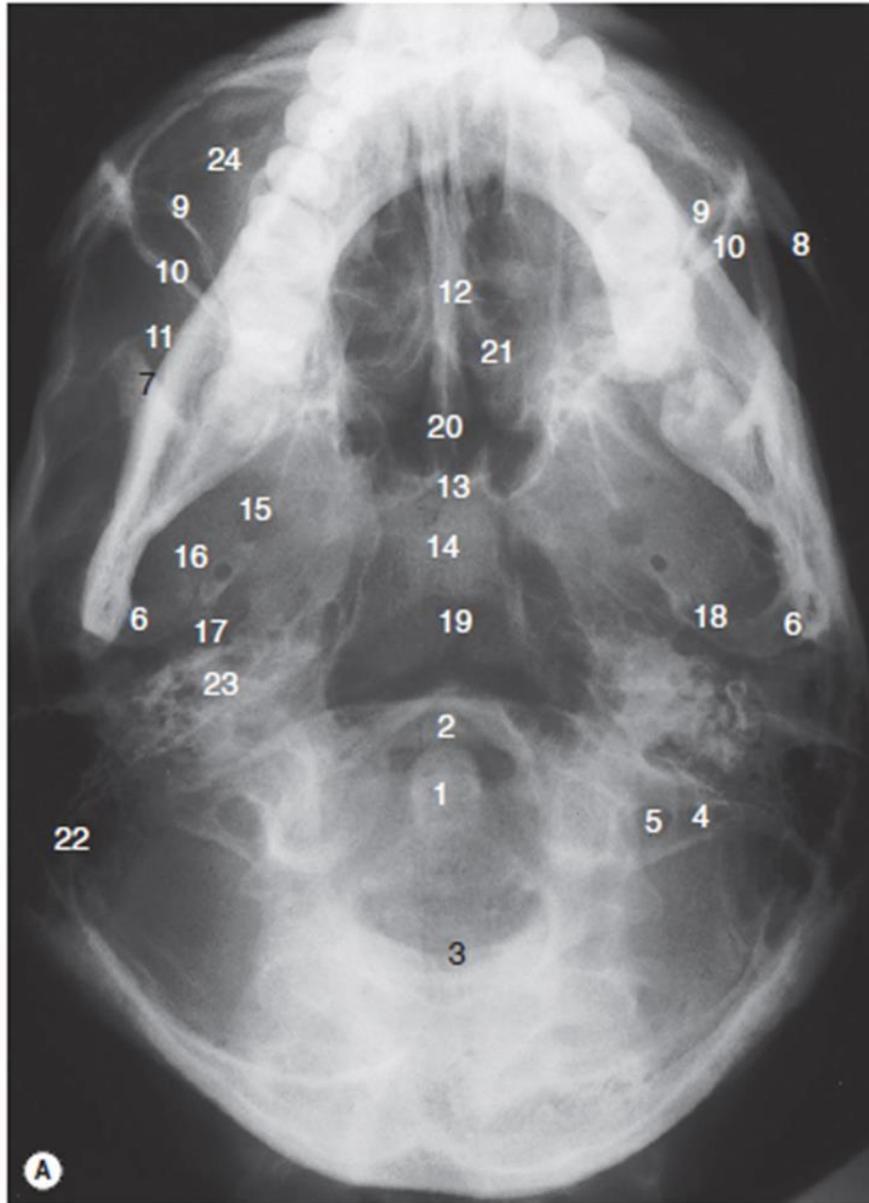

- |                     |                   |
|---------------------|-------------------|
| 1. Bregma           | 13. Dorsum sellae |
| 2. Coronal suture   |                   |
| 3. Lambda           |                   |
| 4. Lambdoid suture  |                   |
| 5. Vertex           |                   |
| 11. Styloid process |                   |
| 12. Clivus          |                   |

14. Posterior clinoid process
15. Anterior clinoid process
16. Pitutary fossa (sella turcica)
17. Tuberculum sellae
19. Greater wings of sphenoid
23. Posterior wall of maxillary
24. Floor of the orbit

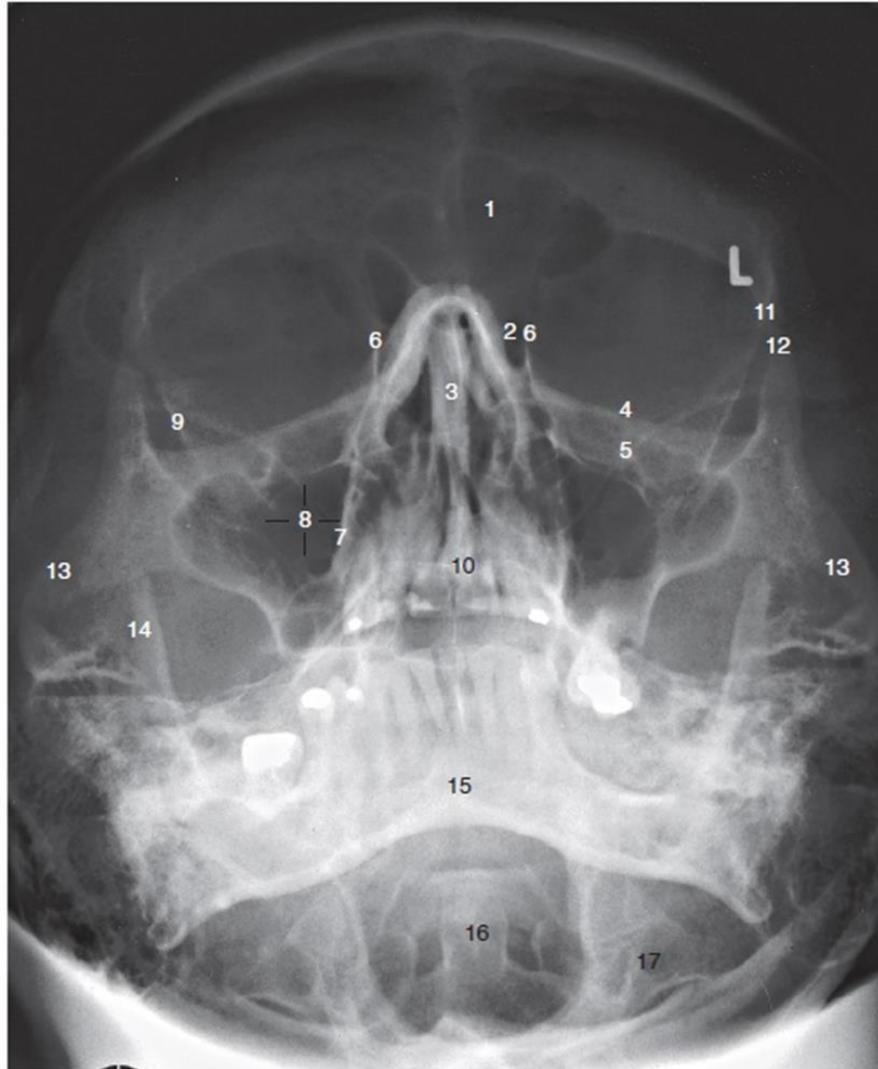

### **OF20 Skull Radiograph**

- |                                   |                                       |
|-----------------------------------|---------------------------------------|
| 1. Sagittal suture                | 10. Lesser wing of sphenoid           |
| 4. Crista galli                   | 12. Zygomatic process of frontal bone |
| 5. Perpendicular plate of ethmoid | 13. Zygomaticofrontal suture          |
| 6. Floor of pituitary fossa       | 14. Frontal process of zygomatic bone |
| 7. Nasal septum                   | 20. Occipital bone                    |

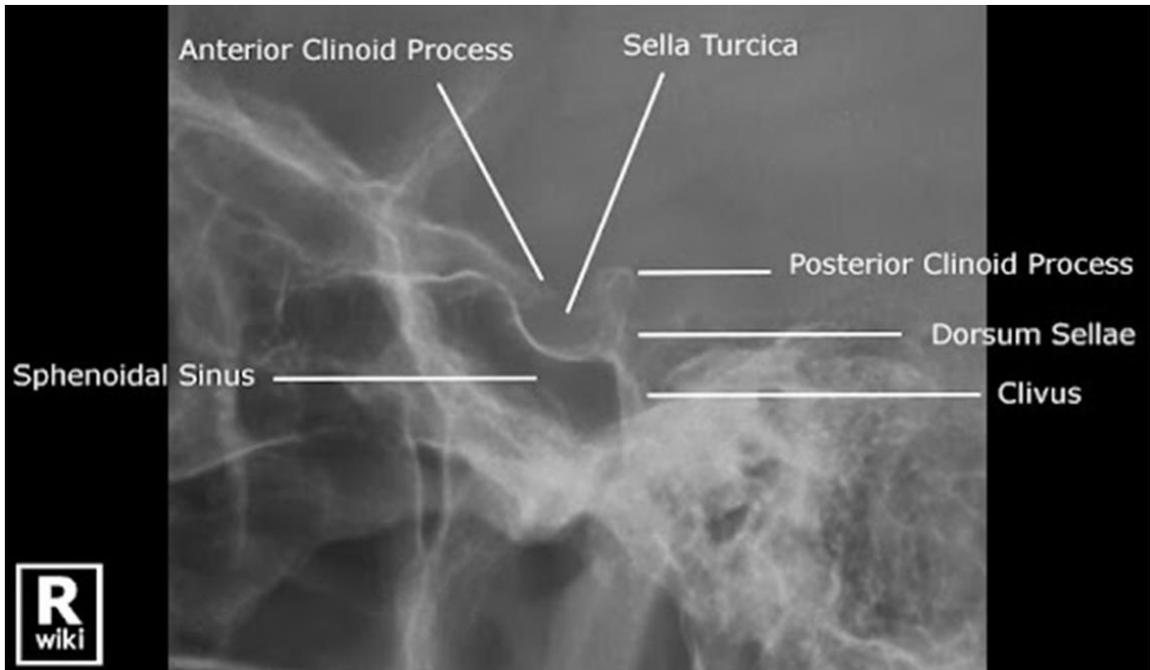

### SMV Skull Radiograph

- 3. Posterior limit of foramen magnum
- 8. Zygomatic arch
- 10. Lateral boundary of the orbit
- 11. Lesser wing of sphenoid
- 12. Nasal septum
- 14. Clivus

### OM Skull Radiograph

- 3. Nasal septum
- 4. Inferior orbital rim
- 6. Medial wall of the orbit
- 11. Zygomatic process of frontal bone
- 12. Zygomaticofrontal suture
- 13. Zygomatic arch

Sella Turcica
